## WELDER – Certified Structural

Our \$200 million company, Dawson Construction LLC, has an immediate opening for a **Welder** certified for structural steel welding to join our team in Ketchikan, Alaska. As people are our greatest asset, we are committed to being a great place to work and providing a culture of personal growth and development. We are actively looking for the right individual to round out our Yard team who is interested in building their career with Dawson.

### **POSITION OVERVIEW**

The Welder lays out, fits, and welds steel and aluminum components to assemble structural members such as cross-brace frames, rectangle frames, pile frames, columns, struts, and other building parts by performing the following duties:

#### **Essential Functions**

- Plans details of work order procedures; gathers required tools and materials based on instructions and specifications provided for the job.
- Repairs and fabricates various items and equipment using cutting, burning, and welding techniques and equipment.
- Monitors the welding, burning, and fitting process to ensure parts are not overheated or damaged by warping, distortion, expansion, or shrinkage.
- Prepares, assembles, and tacks weld parts and surfaces to be welded.
- Maintains, organizes, and cleans equipment and the work area.
- Notifies supervisor when faulty equipment or defective materials are discovered.

#### **Minimum Requirements: Education and/or Experience**

- Welding Certification Required: D 1.1 and D1.5.
- Two (2) years of hands-on experience in structural steel welding.
- Highschool graduate or general education degree.

#### **Skills, Knowledge, and Abilities**

- Thorough understanding of machines and tools used in welding including designs, uses, maintenance and repair.
- Basic understanding of design techniques, principles, and tools necessary for the precise production of technical plans, drawings, models, and blueprints.
- Excellent ability to read and listen to assignments given in a variety of forms.
- Basic understanding of mathematics as related to welding assignments.
- Ability to provide solutions for unforeseen problems.

#### **Physical Requirements**

- Must be able to see details at close range.
- Must be able to lift up to 35 pounds at a time.
- Must be able to traverse facilities and machinery by climbing, balancing, lifting, walking, stooping, and carrying materials.

***We offer competitive pay, excellent benefits, a culture of continuous improvement and opportunity for career advancement through continued company growth.***
